METHODIST DISTRICT CHURCH CONFERENCE HELD IN BAY CITY

Two-Day Meeting Adjourned Wednesday Afternoon—
Lunch Served Each Day By Ladies of Church—
Poplarville to be Next Meeting Place.

The two-day Seashore District Conference held in Bay St. Louis, Tuesday and Wednesday of this week opened with a record attendance, a great speech being made by Dr. J. L. Decell, pastor of Galloway Memorial Methodist Church, Jackson, Miss., on the Educational Work of the church. Dr. Decell commended the work being done by Whitworth College for girls, and Millsaps College, a co-educational institution. He pointed out that Millsaps held an enviable rating among the colleges of the State and that it was second to none in its standards as measured by the Associations of colleges.

The secretary of the last District Conference which met in Purvis, Rev. Featherston Vaughn, pastor of Ocean Springs, was elected to serve as secretary this year.

An interesting part of the day was the making of verbal reports by the pastors of the District. Every pastor made his report. In general the work of the District is progressing nicely.

Dr. J. L. Neil, pastor at East End, Meridian, Miss., preached at eleven o'clock. He brought a forceful and inspirational sermon stressing Christian brotherhood.

In the afternoon a high point in the Conference was the little program put on by representatives of the student body of Whitworth College. No better singing and reading has been heard in Bay St. Louis in some time.

One man who is almost always present at District Conferences, Mr. W. D. Hawkins, a Mississippi Annual Conference official, holding the office of conference missionary secretary, was absent due to a serious automobile accident. He is confined in a hospital in Meridian. The conference here remembered him by sending a wire and flowers expressing their sympathy and love and pledging their prayers.

At the noon hour the ladies of the Bay St. Louis Methodist Church entertained the conference members with a delightful lunch. This was done both days of the session of the conference.

Rev. A. J. Boyles, the pastor of the Methodist Church here seemed the happiest man about. He had plenty to do however and could be found almost anywhere you looked if you looked in the place as long as a minute.

On Wednesday morning Mr. Marcus N. Howell, of the American community, was licensed to preach in the local relation, meaning that he be under the supervision of the pastor where he lives and can be called upon from time to time to preach and assist in the work of the ministry and Church.

Rev. R. I. Moore, and Rev. B. M. Lawrence, local preachers serving charges were recommended to the Annual Conference meeting in Hattiesburg next November to membership in that conference. These two fine young men will most probably be admitted which means they will be put on probation for two years as members of the Mississippi Annual Conference and if after the end of those two years they are still acceptable they will be ordained.

Of great interest to all the members which is composed of the 27 pastors of this District and lay members from each church and charge (group of churches) was the election of officers and lay delegates. The lay delegates will represent the District at the Annual Conference in Hattiesburg.

Probably of greatest interest to one of the sessions of the Conference was the address made by Dr. C. A. Bowen, Secretary of the Editorial Department of the General Board of Christian Education with offices in Nashville, Tenn. He outlined impressively the methods and effectiveness of the agencies of Unchristian Education in the past few years and how the agencies of evil had even adopted the methods of the Church in putting on this unchristian education. He, by contrast, emphasized the necessity of greater vigilance in Christian Education and what a great responsibility rested on our shoulders for this proper education.

Below find a list of all the elections that took place at the Conference. These will be of interest to many people throughout this section.

Principal Lay Delegates—J. E. Goff, Mrs. L. J. Power, W. L. Mabry, Mrs. C. C. McDonald, L. P. Fickling, W. L. Jones, Mrs. Lee White, Galloway Corley, Mrs. George Thompson, Mrs. P. N. Howell, L. C. Corban, A. F. McGhee, R. M. Spauld.

STATE SENATOR SPEAKER BEFORE BAY ROTARY CLUB

At Luncheon Meeting Held
Wednesday Noon—Good
Attendance.

At the regular luncheon-meeting held Wednesday noon by the Bay St. Louis Rotary Club, at Hotel Weston, State Senator Frank Pittman of Hancock county was the guest speaker.

Mr. Pittman spoke on the necessity of the Pure Seed Law which will be taken up at the next meeting of the Legislature and stated that every effort will be made to put this bill through. It is estimated that this law would save the farmers of the State around \$1,000,000.

Mr. Pittman also spoke on the laws of the State concerning dairy products and said that they had been of much value to the state and that information on them has been asked by other states and Cuba.

The speaker was interesting and instructive and held the attention of all the members.

Rev. Alford of Moss Point was a guest of the club, while attending the Methodist District Conference held this week in this city.

SOLEMN RITES HELD FOR PRIEST

Bishop of Diocese and Fifty
Priests Attend—Thirty-Six
Years in Priesthood.

Solemn funeral services for the Very Reverend Charles Wolf, S. V. D., Subprovincial of the Southern missions of the Society of the Divine Word, were held Monday morning at St. Augustine's Seminary, Bay St. Louis, Miss. Father Wolf died of heart failure last Thursday, at the age of sixty-five. He was thirty-six years in the priesthood.

The Divine Office of the Dead was recited by the attending clergy at ten o'clock, after which a Solemn High Mass was celebrated. The officers of the Mass were: The Very Reverend Hugo Aubry, S. V. D., Provincial of the Society, celebrant; the Reverend John Kemper, S. V. D., deacon and the Reverend John Gasper, S. V. D., subdeacon. The Reverend Joseph Holken, S. V. D., pastor of the St. Rose de Lima Church, Bay St. Louis, Miss., delivered the sermon in which he paid an eloquent tribute to the memory of his departed confessor.

The Most Reverend Richard O. Gerow, D., Bishop of Natchez, presided and gave the funeral blessing. His Excellency conducted the services at the cemetery. The body was taken to St. Augustine's cemetery for interment. The mass was sung by the seminary choir. The seminarians served as pall-bearers. Over fifty priests from all sections of the Coast, including many from New Orleans, were present at the solemn obsequies. A few of the relatives of Father Wolf were also at the Mass. Representatives from the Brothers of the Sacred Heart, Sisters of the Servants of the Holy Ghost, and Sisters of St. Joseph, of Bay St. Louis, attended the services. Among the civic representatives of Bay St. Louis was his honor the mayor. The students of St. Stanislaus and St. Rose de Lima attended the Mass in a body. Many others attended this solemn service and witnessed the burial as an expression of their love and esteem in which Father Wolf was held by all who knew him.

The Reverend C. Wolf, S. V. D., was born 1873 in Rockenberg, Hesse, Germany, the son of Philip and Catherine Wolf. He made his theological studies at St. Gabriel's Mission House, Vienna, Austria. He was ordained to the priesthood, April 28, 1901. After ordination, Father Wolf went as a missionary to Togo, Africa. Here he worked for the conversion of the African race until 1917, when, during the World War, he was expelled and taken prisoner and held on the island of Man, for half a year. During 1918 he returned to the headquarters of the Society in Germany, and remained there until 1921, at which time he came to America. While in America, he was pastor of St. Joseph's Church, Meridian, Miss., from 1921 to 1931. Later he was transferred to Greenville, Miss., and served here as pastor of Sacred Heart Church from 1931 to 1936, when he was elected Subprovincial of the Southern missions, a position which he held until his sudden death.

NINE YEAR OLD BOY SAVED BY LOCAL GIRL SCOUT

Henry Prevou Pulled From
Water Into Which He
Had Fallen.

Through the heroic efforts of Marie Violette (Bobbie) Arceneaux, daughter of Mr. and Mrs. E. J. Arceneaux, of South Beach Boulevard, and a girl scout of this city, assisted by Clifton Piazza, nine year old Henry Prevou was saved from drowning Saturday afternoon at the end of the St. Stanislaus College wharf.

It seems that six young children had gone out on the wharf to fish when all of a sudden cries for help were heard from the water. It was undetermined just how the boy fell into the water but it was presumed he had fallen from a boat in which he had been playing.

The Arceneaux girl fully dressed jumped into the water and swam to the boy grabbing him as he came to the top after sinking. After a struggle she overpowered the child and held on to him. Young Piazza threw her a rope and helped her get the boy to the wharf the boy was given artificial respiration, which had been learned thru boy scouting, and revived. Later he was carried to his home by Clifton.

Henry had swallowed plenty of water, but after a short while was none the worse for his experience.

CHILD HEALTH DAY, MAY 1

To Be Observed in Every
School with Health Dinner
Served by Lunch
Room Workers.

In accordance with the plans set up by Gov. Hugh L. White and Dr. Felix J. Underwood, State Board of Health, for a state-wide child health dinner throughout Mississippi, to be observed May 1, which has been set aside as Child Health Day, Hancock county school lunch room workers intend to cooperate in every way possible. In every lunch room a Mississippi grown menu will be served. This means that every dish prepared will be something that has been, or can be grown in Mississippi. And as much of this as possible will be foodstuff grown in Hancock county.

The following article was taken from the March issue of Nutrition News, which is published in Jackson by the Nutrition Department of the Works Progress Administration.

As we approach Child Health Day, May 1st, the day set apart by our Governor and our director of the State Board of Health of Mississippi for calling everybody's attention to "Child Health," we are directing our efforts toward the use of Mississippi's home-grown protective foods in child-feeding, we are promoting fresh vegetables and fruit production; we are calling for more Grade A milk and milk products; we are striving to bring into use more fresh food, more of the "protective" foods in the children's menu; the foods that protect a child from dependency and delinquency, from disease, from inertia, from the danger line of suffering and unhappiness.

For our part in observance of Child Health Day in Mississippi, we announce our plan for a Child Health Menu. To our school lunch managers we are saying, serve a school lunch of the protective foods, the fresh meat, milk or eggs, vegetables, fruits. Join with us in this far-reaching child-feeding demonstration.

On Friday, April 30th, every school lunch room in operation under W. P. A. will offer a Child Health Menu; on Saturday May 1st, every mother of the lunch room children is invited to serve a Child Health Dinner. To all of the people of Mississippi we say, grow a garden; conserve the surplus for winter use; produce and use more milk, eggs, and meat; serve a Child Health Dinner every day in the year and help promote child health and happiness in Mississippi.

Fortier Tarpons—Night
Game, 8 O'Clock.

After three weeks of strenuous work Coach Wop Glover will send a football squad against Jack Pizzano's Fortier Tarpons, Saturday, April 24, at S. S. C. stadium. The game is going to be a regulation contest with the coaches using only the men that will be eligible for competition next fall. This marks the first time that a spring football game has been scheduled at Stanislaus and from all indications a large crowd is expected.

Fortier will be one of the leading contenders for the prep crown in New Orleans next year as word comes that most of their 1936 team is back. The Rock-A-Chaws will also be stronger than last year. The Rocks have Monti, Isky, Strong, Glover, Hardy, Folse, Melancon, Gibbons, and several holdovers from the second string to make the squad more experienced.

Coach Glover announced that several changes have been made with the men during the spring work. Prominent among those are Cannon a husky boy from last year's reserves has been shifted to guard and is showing up fine; Weenie Giamelloni, brother of V. J. is holding down the other guard post; Gene Monti has been moved to the blocking back position, and Joe Glover, tackle of last year has been converted into a full back. Thomas is alternating at full back and running guard.

Two hundred advance tickets have been sent to Fortier and a record crowd is expected. Brother Romuld and his State Champion band will be on hand to furnish the music. The game will start at 8 o'clock with admission of 30 cents for adults and 15 cents for children.

MRS. JOHN A. GREEN, JR. LOSES MOTHER.

Deepest sympathy is felt for Mrs. John A. Green, Jr., in the death of her mother, Mrs. Williams, who was killed in an accident at Houston, Texas. Mrs. Green and little daughter, Mary Jane, who were here on a visit at the home of Mr. and Mrs. John A. Green, Sr., left early Sunday morning for Houston.

As the date of April 25th approaches interest accelerates in the forth-coming Spring Festival, originally Annual May Queen celebration given at St. Joseph's Academy gym, by the faculty and students of that institution, benefit of Gym debt fund.

The contest for queen has been exciting. Various contestants for the honor have been earnest and active in their campaign for success. The public has been interested as well.

By popular vote Miss Vera Banderet has been elected Queen due to having received the largest number and Miss Elsie Mae Capdepone was chosen as Maid of Honor.

In addition to the Queen's court consisting of twenty-two maids and dukes, there will be the same amount of little flower girls and boy companions. Two numbers will be provided by students of the school and a special number by Joe Gilbert for the entertainment of the Queen and court as well as for those attending.

The affair will start promptly at 8 o'clock.

Those in charge of arrangements and decorations for the occasion say that this year's pageant will far surpass any previous year in beauty and attractiveness. The stage will be decorated with roses and Easter lilies and the couples arranged on the stage in tiers which provides a beautiful and spectacular scene.

The maids in their varied-colored gowns and the dukes in white suits will add much color. The hall in general will be appropriately decorated.

An admission fee of 50 cents will be charged. There will be dancing after the crowning of the queen.

AMERICAN LEGION TO DEDICATE NEW RECREATIONAL HALL

Salute To Be Fired in Honor
Of President Roosevelt
During Fishing Trip
On Coast.

The American Legion of the Department of Mississippi has perfected plans for the dedication of its new Recreational Hall which has recently been completed on Ship Island just to the east of historic Fort Massachusetts. This celebration will be held during President Franklin D. Roosevelt's vacation and fishing in the Gulf of Mexico. There will be a Presidential salute fired in honor of President Roosevelt from the big fifteen inch Rodman gun which was placed on top of Fort Massachusetts seventy-two years ago. This old gun has never been fired. It will be a unique experience for Department Commander Charlie Sims when he fires the first shot from this old gun.

On August 30, 1847, this island was declared a military reservation by proclamation of the President of the United States. During Jefferson Davis' tenure of office as Secretary of War, plans were made to build the present fortification. During the Civil War, Ship Island and Fort Massachusetts was constructed under the supervision and direction of Federal troops and most of the work was done by Confederate prisoners. The work was begun June 30, 1862 and completed in 1867. It is a fortification of circular masonry with a twenty-one gun capacity. So perfect was the masonry in the construction of this fortification that it stands today as perfect as it was at the time of its completion.

When the French sought a place of safety, in the colonization of the great southwest, they anchored their supply ships in the basin north of Ship Island, approximately where the fortification is now located. It was from this place on Ship Island that the French established settlements at Biloxi, New Orleans, and Natchez. During the War of 1812, Packham anchored the English fleet in this basin which remained at anchor there during the battle of New Orleans. It is the plan of the Legion to anchor President Franklin D. Roosevelt's yacht in this historic basin during the dedication of the new Recreational Building and the firing of the official salute to him from the old gun.

The American Legion plans to make this a great national playground and health camp for boys and girls and to preserve the history connected with Ship Island.

PREVENT OR KEEP OUT OF WAR.

WHILE the Congressmen are ironing out the wrinkles in their effort to prevent the United States from ever becoming embroiled in a foreign war by passing "neutrality" legislation it might be well to pass along the idea prevalent in many informed heads that no legislation will keep this nation out of a general war.

In fact, experienced students of warfare are very often convinced that, despite everything we can do, this nation will not be able to keep out of a general war. Recently, Anne O'Hare McCormick, foreign correspondent, expressing this view said that "our only safe policy is to try to prevent war."

While every citizen recognizes the desirability of staying out of European and other foreign wars there are not enough of them to recognize the wise insurance of attempting to assist the world in the maintenance of peace. Such a policy involves risks, it is true, but they do not seem to be out of reason when we consider the gains that are possible.

BOTH NATIONS HORRIFIED.

AMERICANS will be horrified by news from China that lepers are being apprehended and executed and that blind persons are also believed to be doomed to death.

The news dispatch does not indicate how far the campaign has extended but it is apparent that the authorities are waging a war of extermination in some areas.

Meanwhile, we suppose, educated Chinese are amazed at the news from the United States, where they read, one hundred Americans are killed every day on the highways where automobiles speed at dangerous paces. They probably find themselves horrified at the death toll and murmur in pity at the injury of hundreds of thousands every year.

In this country we are immune to the slaughter of the highways because we are accustomed to it. In China they do not worry much about those beheaded, because, over there, it is an old story.

Make Bay St. Louis the kind of a town that you want it to be by being the kind of a citizen that you expect your neighbors to be.

POPULAR NAMES FOR CHILDREN.

THERE is absolutely no telling where the experts are not to break into print and sometimes they get into the news columns with weird and fancy tales.

Occasionally, one comes forward with some splendid advice. Such is the case with W. E. Walton, University of Nebraska psychologist, who warns parents against giving their children "odd-sounding" names, which will plague them the rest of their lives and thwart the normal development of personality.

The doctor has also studied the popularity of given names, with the result that Robert, Richard, Charles and Jack take first place among the boys and Jean, Dorothy, Jane and Virginia hold the forefront among girls.

AVIATION MOVES ALONG.

ONE day last week twelve naval planes completed a mass flight described as routine, from San Diego, Cal., to Honolulu, carrying seventy-eight men from the mainland to the island, 2,553 miles, in 21 hours 25 minutes.

On the same day Frank Hawks, flying his special plane, breakfasted in Hartford, Conn., had lunch about five hours later in Miami, Fla., and enjoyed his dinner in New York some four hours and a half later.

Neither of these flights drew large headlines because they are not considered spectacular any longer. The public expects advances in aviation. It is safe to say that inauguration of trans-Atlantic mail plane service this summer will not amaze the public on either side of the ocean. It, too, is expected.

The mystery of education is not how much people learn but how much they refuse to learn.

The approval of the Wagner Act by the Supreme Court was peculiarly gratifying to Democrats. Narrowly considered, it settles for good, the question as to whether or not the party acted in strict accordance with the law of the land in giving the Federal Government increased power over industry under certain specified circumstances which call for the exercise of that power. More broadly viewed, it indicates that there exists within the Court a flexibility which will promote the efforts of the party to keep abreast of the times and minister to the ever-changing necessities of human affairs.

Congressman A. L. Ford, of the fourth district, has asked the federal government for fourteen million dollars for state vocational education in Mississippi, according to a dispatch from Washington. He considers this amount necessary for the government for this type of education in that state, because our citizens in many counties and school districts were unable to pay higher taxes for education. Mr. Ford is an advocate of the Harrison-Black-Fletcher educational bill of federal funds for education now before congress, and is urging its passage.

YELLOW FEVER STRIKES AGAIN.

THE annual report of the Rockefeller Foundation conveys the sad news that it was in error in proclaiming the defeat of yellow fever and presents a darker picture of the task ahead of medical science before the desired goal is attained.

Prior to 1929 the Foundation maintained that yellow fever had been practically eliminated as a human menace, basing its belief upon the theory that the disease was transmitted solely by the Aedes aegypti mosquito and its attack upon the destruction of the breeding place of these insects. Then, says Raymond Fosdick, President of the Foundation, without warning the South American jungle struck and it was discovered that an endemic type of yellow fever could occur and did occur in regions where these mosquitoes did not exist.

Consequently the men of science are now engaged in an effort to locate this unknown source of the fever, having spent nearly \$300,000 last year in search. Altogether, more than \$6,000,000 has been expended in the campaign against yellow fever which began in 1915.

The Foundation is also conducting an elaborate campaign for research and demonstration in malaria control, spending \$170,000 for the work last year. This disease, also limited to tropical and subtropical climates, is still believed to be caused by the Anopheles mosquito.

These are but examples of the great work that the Foundation is doing in an effort to make certain diseases preventable and thus diminish the scourges of the human race. Last year it spent altogether more than \$11,000,000 in prosecuting its undertakings to "promote the well-being of mankind throughout the world."

Europe, like a punch-drunk boxer, takes a lot of punishment but keeps going.

GIVE OF YOUR TIME.

THERE are probably many residents of Hancock county who are anxious to undertake something for the good of their community.

As a rule these individuals plan to give a generous donation to some worthy cause one of these days, when they have the money to spare. They are sincere in their thoughts about helping the unfortunate and assisting worthy enterprise. The only thing that they lack is the money, which will never be available in almost every case.

There is a way, however, for intelligent people to build up their section of the world without waiting on fortune. First, every individual can live the life of a good citizen, doing his or her share in the development of those things which mean progress and advancement. To do this it is necessary, first, to have the desire and, secondly, to be willing to give a little time. If every inhabitant of this area would consciously donate five or ten hours of time, each month, to public service there is no telling what could be accomplished. Most of us have the time but it is not organized in cooperative effort even when offered by a liberal spirit.

The results might not be spectacular but they would be effective. Too often, we fear, individuals hesitate to render service because they want it to be outstanding. The truth of the matter is that human beings need to realize the value of a mass of small contributions to the general good. Even if a hundred people in this entire county donated several hours a month to unselfish public endeavor the results would be seen within a short time.

SPANISH WAR 9 MONTHS OLD.

THE war in Spain was nine months old last Saturday. So far, other nations have not become involved in direct conflict, regardless of what they may have done in extending assistance to one side or the other in the civil war itself.

The battle between the contending forces in Spain continues, with many observers expecting the fighting to last for some years. Great Britain it is reported, looks for a stalemate to be ended by a peace without victory. Work in international affairs and determined to look out for England, she steers a course between Italy and France, probably hoping that, when it is over, the British will not come out least among those involved.

The revolt began July 17, 1936. Until Feb. 18th the rebels seemed assured of ultimate victory but the loyalist defense of Madrid stiffened, to be followed a month later by the defeat of the Italians at Brihuga and subsequent loyalist advances elsewhere. Just now, the insurgents are pushing their attack upon the Basques with some success. However, as last week ended the forces of both sides seemed to be slowing up a bit, probably preparing for new moves.

At this time of year the Mississippi Gulf Coast excels in sports of all kinds. Fishing, golfing, tennis, boating, and shortly swimming will come into their own.

CAROL AND NICHOLAS.

FOR the benefit of readers who like to discuss royal romance it may be worth space to take up the amazing instance in Rumania, where King Carol has exiled his brother because Prince Nicholas, happily married to a woman not of royal descent, insisted upon recognition of his wife and child.

Back of the royal argument is probably much political intrigue but it hardly seems reasonable for the King, who sojourned all over Europe with Madame Lupescu, to indict his brother for his marriage. However, in countries dominated by kings anything is likely to happen.

The subject of what Congress may or may not do in the way of legislation, it may be recalled that there is pending a bill which makes lynching a federal offense. The papers report a lynching in which the person charged with crime was tied to a tree and burned to death in a leisurely way with blow torches. If the anti-lynching bill cannot be passed without compromise, it should at least be modified to the extent of providing that criminals executed unlawfully by mobs shall have the benefit of the constitutional provision that cruel punishments shall not be inflicted.

INTERESTING NEWS ITEMS OF THE MOVIES AND FILM FOLK IN HOLLYWOOD

A TROOP of eighteen sailed recently for the South Seas to film scenes to be used in "Hurricane." In the meantime a reproduction of a part of Pago Pago is being constructed in Hollywood to be ready for the director's return. This set is to be destroyed by the sequence, which is under the direction of the same man who created the earthquake in "San Francisco," is scheduled to cost the studio \$250,000.

Edward Everett Horton's latest addition to his estate is called Astaire Annex. He has a Lubitch Ell and a Edgwick Segment, which were added before.

The Cinema Troup was the result of a bright idea by Captain Richard Von Opel, who came to Los Angeles with the Austrian Fencing team in the 1932 Olympics. Realizing that numbers of inexperienced actors became injured on "Charge of the Light Brigade" sets, he recruited a hundred men and formed the Cinema Troup. These men have been taught the arms manuals, customs, manoeuvres, etc., of different nations and are trained in fighting realistically without being hurt. They receive higher pay than the ordinary extra but are in great demand at all of the studios.

WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

THEY WANT TO WRITE

(Jackson News)

THE Daily News has received no less than two dozen letters from boys and girls in schools and colleges of Mississippi who want to become newspaper writers.

This is but the beginning. The big flood will start shortly prior to the commencement season.

Some of the youngsters are willing to start as cub reporters at meagre salaries—just anything that will sustain life—but many more want to start as columnists, sporting editors, society editors and feature writers. They seem to think they are already qualified for important jobs.

Mighty sorry, youngsters, but you are going to find it hard to get a footing in the profession of writing, and it is settled certainly that you can't start at the top.

Believe it or not, girls and boys, but newspaper writing is a profession, and a darned hard one to learn unless you have a natural aptitude therefor. You can't declare yourself to be a newspaper writer, and thereby be one, no more than you can declare yourself a doctor, lawyer, or preacher.

Mrs. Humphrey Bogart is to have her screen debut in Betty Davis' new picture. She was formerly Mary Phillips, a well known New York stage actress.

Deanna Durbin's first public appearance was in a Baby Show where she won first prize for having the lushest lung.

Rufe Davis, a hill billy with a guitar, is the latest comedy find, according to studio heads. He has been signed up and has a featured role in a Bob Burns-Martha Raye picture.

Wyn Cahoon, who has been playing in "Brother Rat" on Broadway, has been signed by Columbia Pictures. She was with Billy Rose at the Texas Centennial.

Metro is revising the script of "The Notorious Maize Kenyon," with Ina Claire in mind. It was to have been used as a vehicle for Gloria Swanson's comeback but Miss Swanson turned it down after reading it.

It is rumored that Beatrice Lillie and Bert Lahr will come to Hollywood in June to the Universal studios.

It is rumored that Norma Shearer will resume work in June. The story will in all probability be "Marie Antoinette."

Another picture remake being planned is that of "Shopworn Angel," starring Jean Harlow and James Stewart. It was formerly produced in 1923 with Gary Cooper and Nancy Carroll as leads.

Shirley Temple's next picture will be entitled "Heidi."

PAT HARRISON'S VIEWS.

(Jackson News.)

IN matters of much moment Senator Pat Harrison never seeks to straddle or play both ends against the middle. Concerning sit-down strikes he had the following to say on the floor of the Senate:

I am opposed to the sit-down strike method of settling disputes between employees and employers. We have given to labor as many other rights and privileges under the sanction of law but the government can never approve of any employee taking and utilizing his employer's property no matter how just may be his demands against his employer.

We will pass a separate resolution condemning the practice of sit-down strikes. It will receive an overwhelming vote of the senate. I have no sympathy with sit-down strikes.

Our Senator would have been still within the realm of truth if he had declared that the sit-down strike is a form of lawlessness that will lead to anarchy. The time for suppression is now, not after human blood has been shed.

Besides, like all other professions, the Fourth Estate is sadly overcrowded.

IT'S TRUE! By Wiley Padan

New York, N. Y. — "IT'S TRUE! that director George Seitz has added to his fame by becoming understudy for a tea-kettle and thus gaining fame as the champion hisser on the M-G-M lot," says Wiley Padan. "The sound of hissing steam was needed for his picture, 'A Family Affair,' and the sound man was in despair. Water boiling in a kettle sounded like a steam engine, and other tries were worse. Finally Seitz, hissing through cupped hands, got the exact sound wanted. So Seitz hissed two minutes for each of five takes."

GUARDING YOUR TREASURES

THE accumulation of valuables carries with it anxiety as to the safety of these possessions.

In times past, treasures were buried, concealed in cave, walled up into dungeons, protected by armed guards.

Nowadays, the steel and concrete vaults of the bank's Safe Deposit Department, with its huge bolts and bars and latest mechanical safe-keeping devices, will guard your treasures far better than any of those ancient methods.

You can rent a safe Deposit Box here for \$3.30, \$5.50 or \$11.00 a year.

Som: Misunderstood Points Relating To Old-Age Benefits

In an effort to clear up an important point concerning Old-Age Benefits, Luther N. Davis, Field Representative of the Social Security Board at Hattiesburg, Miss., issued the following statement:

"The Social Security Board has received reports that some wage earners believe that participation in the Old-Age Benefits program depends wholly upon their own decision. The act provides that all employees under sixty-five years of age who earn wages in certain commercial or industrial employment are included.

"The Act makes no provision for permitting persons to participate voluntarily whose age or employment excludes them from participation in the Old-Age Benefit Program."

Mr. Davis also explained that the number of employees in an establishment has no effect upon the status of any worker in connection with the Old-Age Benefits system. A single employee has the same status as one whose employer hires thousands.

In answer to a question about foreigners who earn wages in this country, Mr. Davis said that citizenship is not an eligibility requirement for Federal Old-Age Benefits. "Employees who are not citizens should file Treasury Form SS-5 in the same manner as those who are citizens," he declared.

Regarding individuals who work for two or more employers at the same time, the Field Representative explained that only one copy of the application card (Treasury Form SS-5) should be filed by an employee since an individual can have only one Social Security Account.

THE STORY OF A WEDDING RING

The pastors of the China Conference have given one day's salary to the Bishop's Crusade. But Rev. Yui-tzsa of Shanghai, who is pastor of Generalissimo Chiang Kai Shek, wanted to do more. He sent to Bishop Arthur J. Moore his wedding ring with the statement, "This is my dearest possession. I want to give the most valued article I have to the Mother Church."

At Greensboro, N. C., the Bishop was visited by a group of young business women of the West Market Street Church. They brought with them \$100. "This," said their spokesman, "is to purchase the wedding ring of Pastor Yui. Now that we own it we ask you to carry it back to Shanghai and place it again upon the finger of the devoted pastor."

Dr. Robinson, in new theory, says gravity is push, not pull.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all methods, effecting immediate results. THERE are usually a flock of suckers in every community—men who fall for advertising scheme sprung by city slickers.

It is surprising what a merchant, business man or banker will sometimes buy from an eloquent stranger.

The out-of-town fellow can often knock a home run with a cracked stick where the local salesman can't make first base with a hickory bat.

In nine cases out of ten your local editor, who knows his own town and his own people, can do you more good than the high-pressure, one-time-selling, enthusiastic spellbinder.

The smart merchant will consult his local editor-printer before he gets gummed up on mail-order blotters, calendars, a phony directory or a mug-book.

DAUGHTERS OF ST. MARGARET CARRYING ON TELLING WORK

Succor the Distressed—Contribute to Daily Free Lunch for School

St. Margaret's Daughters of Bay St. Louis wish to report that for past few months a great deal of charity has been dispensed in the community. Winter and the early spring months are always accompanied by much sickness and increased poverty, and the calls were many and urgent. Food and clothing were given in more than a score of cases, medicines provided for sick persons, children helped in school, two persons enabled to be taken to hospitals in dire emergency cases, and the lunch room work continued, in which 40 children are fed daily, thru the efforts of St. Margaret's.

Several friends have donated towards the lunch room, providing meat, fruit, vegetables and cakes in order to give the children a varied diet and an extra treat occasionally. Anyone desiring to help in this way, may get in touch with Mrs. G. Y. Blaize, president.

St. Margaret's Daughters work is a wonderful one and carries a special indulgence, which Catholics should be glad to receive. The dues are 15c each month and the request is made that everyone try and join. Help is needed.

Actually, though, back of every food delivery to millions of people, there's the high speed, safe and sure L & N freight service. Thousands of cars iced up to keep green goods crisp and garden-fresh—thousands more packed to

GENE RAYMOND'S WISH COMES PLAYS OPPOSITE LILY PONS

In Musical Comedy "That Girl From Paris"—At A. & G. Theater 25-26.

A wish expressed during a chance meeting a year ago finds screen fulfillment in the union of Lily Pons and Gene Raymond in the songbird's new starring musical, "That Girl From Paris."

That meeting occurred on a train east-bound from Chicago to New York. Miss Pons was returning to the Metropolitan Opera, having just completed her first picture, "Dream Too Much," in Hollywood. Raymond had been filling a personal appearance engagement in Chicago and was going on to Boston for future appearances. They talked of Hollywood and the films.

"I'd certainly like to do a picture with you some time," Raymond said to Miss Pons.

When the famous soprano returned to the studio for "That Girl From Paris," producer Pandro S. Berman chose Raymond to appear opposite her.

An excellent musician in real life, Gene Raymond plays the role of a leader of a four-piece orchestra with whose fortunes the tiny singing star is hilariously involved. Raymond has one of the finest roles of his career in this brilliant offering. Ever since his picture debut four years ago, the blonde actor has climbed into increasing popularity with theater-goers, starting as a serious dramatic player and subsequently proving to be a clever comedian as well as a favorite romantic lead.

This versatility enables Raymond to play any sort of part with ease and conviction. In his last four pictures he has been in turn a wealthy yachtsman, a penniless adventurer, a surveyor and a playwright, and his tuneful role in the new picture makes good use of his real talents as a pianist and a composer, his latest song, "Will You?" being ready already as one of the nation's leading numbers.

"That Girl From Paris" deals in delightful fashion with the adven-

In addition to presenting in an entertaining fashion some fifteen or more new recipes, it also shows the latest fashions in ladies' wear as designed by some of Hollywood's leading stylists.

The Guide is extending an invitation to all residents of Bay St. Louis and the surrounding territory to attend "The Bride Wakes Up." There is no admission fee. The Show will begin promptly at ten o'clock each of the three mornings.

PASS CHRISTIAN SCHOOL HOUSE GROUNDS.

Pass Christian is justly proud of its many improvements particularly the new city school recently completed and both an ornament to the classic city across the Bay but an outstanding acquisition to the Mississippi Gulf Coast.

Passerby cannot stop and admire the grounds, spacious and beautifully kept, especially the flower beds that edge the U-shape building. Just now thousands of spring flowers are in full blossom. Borders of sweet elysium, white alternated with purple, are flanked with blooming stock of vari-color, deep gold and yellow calendulas of brilliant hues, contrast in a riot of color. The plants were supplied by the Lorraine Flower Shop nurseries and planted by the Adam nursery force, patronizing a home industry and serving not only to beautify but appealing to the aesthetic taste.

The regular meeting of the Mississippi Education Association will be held in Jackson, April 28-30.

Good programs have been arranged for each department of the Association, and we are especially anxious to have a large delegation of teachers from every section of the state present. We are working toward a unified program in education in Mississippi. We feel that it is a privilege for every teacher to participate in the organization that is helping to build a better school system in our state. I would like to insist upon trustees giving permission to the teachers to attend this meeting. The success of our whole school program depends to a very large degree on the professional attitude of the teachers and this attitude is reflected very largely through the proper participation in our great educational conferences.
